## Report on Results and Details of Student Satisfaction Survey conducted for the A.Y.2023-24:

**Infrastructural Satisfaction**: Ratings range from "Low" to "High," with a notable number of respondents expressing "Medium" or "High" satisfaction regarding infrastructure, classrooms, labs, and library facilities.

**Academic Support and Ambiance**: Feedback on academic support—such as seminars, workshops, and the overall academic atmosphere—generally falls between "Medium" and "High." While students value this support, they recommend improvements in application-oriented and practical learning experiences.

**Faculty Interaction and Guidance**: Faculty support received strong ratings, particularly for helping with doubts and exam preparation. However, some students suggested enhancements in teaching methods and a greater emphasis on value-added courses.

**Practical Application and Lab Facilities:** A common theme in the feedback was the need for better lab resources and a focus on practical applications in courses, indicating issues with equipment quality and availability.

**Extracurricular and Supportive Environment**: Students expressed a desire for more diverse extracurricular options, including sports and cultural programs, to create a more well-rounded college experience.
