Topic	Paper Writing	Resource person	Dr. Shantharam Nayak
Sector	Online Webinar	Date	30-04-2021
Place of Conduction	Sri Krishna Institute of technology, Bangalore	Name of the Participant	8thSem/ 4th year CSE students
In house faculty coordinators	Prof. Pradeep Kumar K(Assistant Professor,CSE,SKIT) pradeepkumarcse@skit.org.in 9916561559		

The CSE Department has organized a talk on **"Developing Technical Paper"** for the benefit of students of 8 sem CSE & ISE on Friday, **30-04-2021**. **Dr. Shantharam Nayak** was the resource persons to conduct this webinar.

Prof. Pradeep Kumar welcomed the resource person and requested to deliver talk. Dr. Nayak discussed about basic structure of a technical paper and necessary components of the same. He provided the clear input to the participants and explained regarding how to formulate a technical paper related to the project work of students. What are the components to be included in the paper which can give proper meaning to that document. More than 90 students attended & actively participated in this talk. Few questions raised by the participants were answered. Prof. Pradeep Kumar coordinated this event. The students were advised to submit their technical paper to the National Conference organized in the Institution. Total participation 70.

The students are encouraged to take up their internship and academic projects in various industries and are motivated to involve in National and International technical events, co-curricular and extra-curricular activities.

About the Department of Basic Science

The Basic Science Department mainly comprises of Engineering Mathematics, Engineering Physics and Engineering Chemistry which form the main pillars of the Engineering programme. The Basic Science Department has well qualified, experienced and highly motivated faculties. The department has got a good infrastructure with well-equipped spacious laboratories. The department provides outstanding teaching to the students to excel in academics. Every year the department conducts Induction Program for the First year students which give them the college bird's eye view about various dimensions of Engineering and the career opportunities for their future. The program also makes them to get acquainted with the environment of the college.

Many faculty members hold doctorates from reputed Universities across India and few are pursuing research in multi-disciplinary areas. The department is granted with several funding agencies for pursuing the research work. The department has been working towards fulfilling its mission through a synergistic

combination of teaching and research.

Day 1 - Report of Student Induction Program – (2020-2021)

Date: 28.12.2020

Day: Monday

Time: 9 am – 1.30 pm

Coordinators for the day:

Prof. RaniPadmini. T. N., Dr. Savita B. Hosur

Session 1:

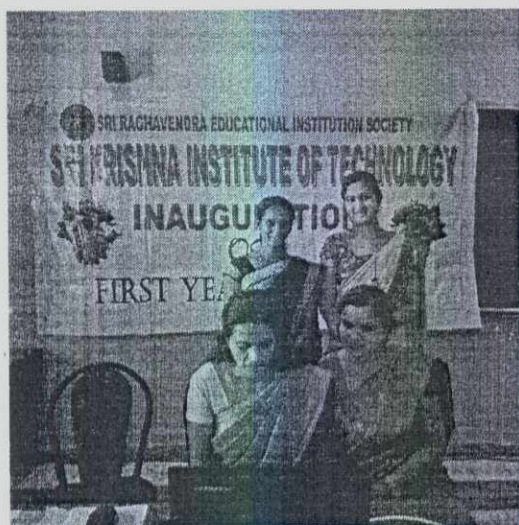

Title: Inauguration of the Student Induction Program

Objective of the session: To welcome the First year BE students to SKIT

Detailed summary: The session started with welcome to the students by Dr. Shankar B S, HOD C Cycle, Department of Basic Science, SKIT. The orientation about the Institute was given by the Dr. A Manjunatha, Principal, SKIT. Also, the faculties of Basic Science Department introduced themselves to the students and welcomed them wholeheartedly.

Outcome of the Session: Students got to know about the Institute and Basic Science department in detail.

Expectations from Education

Education should prepare the student for:
Understanding 'what to do' - What is valuable, as a human being and
Learning 'how to do' - skills, technology

Are both required or we can do with just one of them?

Both are important

What would be the priority between those two?

The Priority is

1. Understanding 'what to do', then → Value Education
2. Learning 'how to do' and Doing → Technical Education

BRIEF INTRODUCTION TO COVID-19

COVID-19 is a Corona virus disease caused by SARS-COV-2 and has proved fatal with far reaching consequences as compared to the previous outbreaks of SARS-COV (Severe Acute Respiratory Syndrome Corona Virus) and MERS-COV (Middle East Respiratory Syndrome Corona Virus). The virus SARS-COV-2 has its origins from the seafood and wet animal market in Wuhan, Hubei province in China.

Corona viruses are minute in size (less than 125nm in diameter) and 26 to 32kbs in length. The subgroups of Corona virus family include alpha (α), Beta (β), gamma (γ) and delta (δ). SARS-COV-2 (Severe Acute Respiratory Syndrome Corona Virus 2) is a subgroup of the β -Corona virus family. It is the pathogen which causes the Corona virus disease COVID-19 which was declared as a public health emergency of international concern by the World Health Organization on 30th Jan 2020.

HONESTY

- Honesty - integrity, truthfulness, straightforwardness, including straightforwardness of conduct, along with the absence of lying, cheating, theft, etc.
- Honesty also involves being trustworthy, loyal, fair and sincere.
- "Honesty is the best policy" - Ben Sandys
- "Honesty is the first chapter in the book of wisdom" - Thomas Jefferson
- William Shakespeare famously described honesty as an attribute people leave behind when he wrote that "no legacy is so rich as honesty" in Act 1 scene 3 of "All's Well that Ends Well."

Time: 3 hrs Max. Marks: 100

Note: Answer any FIVE full questions, choosing ONE full question from each module.

Module-1

1. a. Show that the curves $x^2 + y^2 = 25$ and $x^2 + y^2 = 17$ intersect orthogonally. (16 Marks)
- b. Find the radius of curvature of the curve $y = a \log(x)$ at any point (x, y) . (16 Marks)
- c. Show that the evolute of the parabola $y^2 = 4ax$ is $xy^2 = 4a^2(x - 2a)$. (16 Marks)

OR

1. a. With usual notation, prove that $\tan \theta = \frac{y}{x}$. (16 Marks)
- b. Find the polar equation of the curve $y = a \log(x)$. (16 Marks)
- c. Find the radius of curvature for the curve $(x - a)^2 + y^2 = a^2$. (16 Marks)

Module-2

2. a. Using integration, evaluate $\int_0^1 x \sin x dx$. (16 Marks)
- b. Evaluate $\int_0^1 \frac{x^2 + 1}{x^2 + 1} dx$. (16 Marks)
- c. Find the dimensions of the rectangular box open at the top of maximum capacity when the surface is $xy + yz + xz = 1$. (16 Marks)

OR

2. a. Evaluate $\int_0^1 \frac{x^2 + 1}{x^2 + 1} dx$ by change of order of integration. (16 Marks)
- b. Evaluate $\int_0^1 \frac{x^2 + 1}{x^2 + 1} dx$. (16 Marks)
- c. Prove that $\int_0^1 \frac{x^2 + 1}{x^2 + 1} dx = \frac{1}{2} \ln 2$. (16 Marks)

WEBINAR (RECYCLING OF WASTE GENERATED IN EDUCATIONAL INSTITUTIONS)

The department has organized a webinar on "RECYCLING OF WASTE GENERATED IN EDUCATIONAL INSTITUTIONS" on 27th of November 2020. Dr.KUMARSWAMY Rtd Chief Environmental officer, KSPCB has invited as Guest Speaker for the talk. The presentation embraced the waste managing in the field of environmental engineering to overcome the difficulties facing at the educational institutions regarding waste generation and disposal, and the speech helped the students to understand about the zero waste management system.

This WEBINAR has provided the proper management and recycling of waste generated from educational institutions. The main objective of the webinar was to create awareness regarding solid waste management and disposal.

Educational institutions such as universities can be considered as small communities that have significant impact on surrounding urban areas. Furthermore, solid waste management in educational institutions can informally train students to practice good solid waste management approaches and take this experience back to their homes. Therefore, successful approaches and practices can be easily adopted by surrounding communities. Accordingly, solid waste management in educational institutions is gaining more seriousness in detailing and evaluation of resources recovery and recycling possibilities. Adopting zero-waste policy among educational institutions have been shown to be achievable but requires full scale cooperation.

Criterion 7: Continuous Improvement

- As per NBA, Continuous Improvement is well captured in Criterion 3 and 7 seen together.
- The program must regularly use appropriate, documented processes for assessing and evaluating the extent to which the student outcomes are being attained.
- The results of these evaluations must be systematically utilized as input for the continuous improvement of the program.
- Other available information may also be used to assist in the continuous improvement of the program.

Algae: Potential Feedstock for Biodiesel Production

- High **photosynthetic effectiveness, fast growth rate, and high biomass productivity**
- **Highest producer of oil** per acre as compared to other feedstocks
- Quite common oil content by weight of dry biomass can go **up to 70%** in some species like *Botryococcus braunii* (25–75%) and *Schizochytrium* spp. (50–77%)
- Can grow on **non-arable land, even in brackish and saline waters**; can tolerate the desert, arid, or semiarid lands; and require less amount of water for their growth and survival

The webinar started at 11 am and a welcome speech was given by Ms. Vinutha S. Speaker for the webinar was Mr. Vijay Kumar A, Project Assistant in NAL.

FFT of sine wave was demonstrated using LabView

Section 1 of the webinar was regarding the introduction to LabView software and tools available in LabView software.

Demonstration of sensors and Actuators interfacing with LabView

Section 2 of the webinar was pertaining to the interfacing of Arduino Uno with LabView software. Sensors and Actuators were interfaced using Arduino. LabView code was built for the same and was demonstrated to the participants.

Totally 100 participants were there in the webinar. At the end of the session there was live Q/A session. Feedback link was shared with the participants and E certificates were issued. The webinar ended with a vote of thanks from Mr. Avinash S and HOD of Electrical and Electronics Engineering department Prof. Chaitra A S.

The aim of the webinar was to introduce LabView software for Virtual Instrumentation and the webinar was successfully completed at 12.45 PM.
