DEPARTMENT OF MECHANICAL ENGINEERING

## **REPORT ON WEBINAR - Nov 28, 2020**

As a Subject Teacher it's my whole responsibility to conduct WEBINAR in order to enhance online learning skills of our students, the department of Mechanical Engineering is hosting on the following schedule and the topic:

Topic: "Fluid Power Engineering & its Industrial Applications".

Date: Nov 28, 2020

Resource person: Dr.SN Teli, Professor, Mechanical Engineering Department Bharati

Vidhyapeeth College of Engineering Navi Mumbai.

Time: 3:15 PM - 5:15 PM

**About the speaker:** Dr.SN Teli is a Professor, Mechanical Engineering Department Bharati Vidhyapeeth College of Engineering Navi Mumbai and is expertise in Industry 4.0 technology, Hydraulic & pneumatics, Control Engineering, Mechanical Vibration and Intellectual property rights process. He has 23 years of teaching experience and has filed nearly 10 patents. He was awarded as recognized PG teacher award.

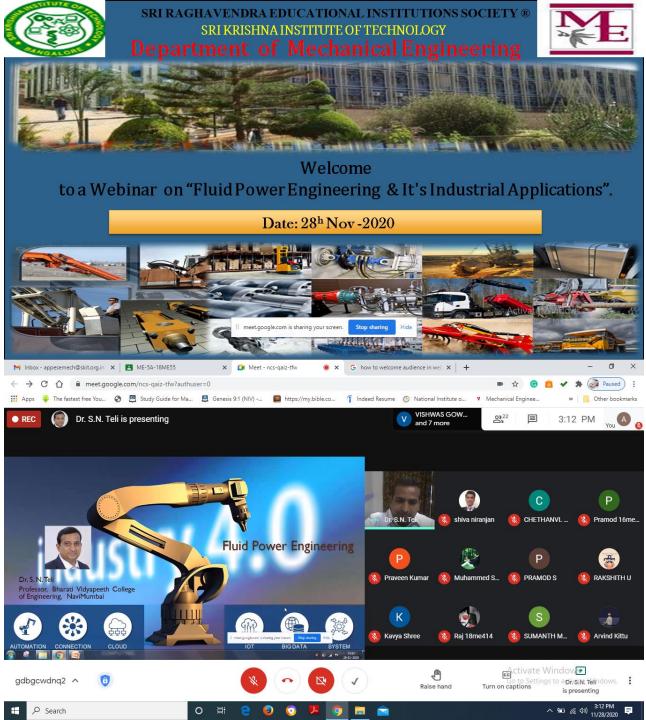

**Description**: During this webinar, he shared the thoughts of his own experience like industry 4.0 technology. He also shared an idea about applying patent on the projects. He motivated the participants in the way of to improve thinking skills. He presented videos and using FEESTO software about perseverance finally by referring pneumatics & hydraulic circuits and industrial applications.

**Program:** For this Webinar, registration link using Google Meet. The link was circulated among students of 5<sup>th</sup> and 7<sup>th</sup> Sem Mechanical Engineering through what's app and email, for our surprise 3<sup>rd</sup> sem students are also joined this webinar that is good thing, More than 45 out of 60 participants both Teaching Faculty Members and Students have participated.

At the beginning, Mr. APPESE S D, Main event coordinator, Assistant Professor, Department of Mechanical Engineering gave a welcome address to the participants, Guests and delivered the vote of thanks.

From the WEBINAR, the participants had the opportunity to know about the Fluid Power Engineering & its Industrial Applications and tools to use an innovative project using hydraulic and pneumatic circuits in addition to gained knowledge about software's finally given E-certificates to those who registered for this webinar.

## **Glimpse of the Webinar presentations:**
