## Event Report

**Activity: Swachh Bharat Abhiyan**

**Department: NSS UNIT SKIT.**

**INTRODUCTION/OVERVIEW:** Swachh Bharat Mission, Swachh Bharat Abhiyan, or Clean India Mission is a country-wide campaign initiated by the Government of India on 2 October 2014 to eliminate open defecation and improve solid waste management and to create Open Defecation Free (ODF) villages. The program also aims to increase awareness of menstrual health management.

### **OBJECTIVES:**

To rope in proper support from eminent personalities and notable public figures to raise awareness among the people.

To devise a proper, door to door, waste collection and disposal system, both in villages as well as urban areas.

To make necessary changes in the local bodies in order to strengthen their functions and efficiency.

To ensure proper availability of water in rural areas through a network of pipes.

To construct separate toilets for boys and girls in all the schools throughout the country.

To provide clean drinking water in all the schools and also to ensure availability of toiletries like soap etc.

To provide proper toilets at all the anganwadis in the country

**SUMMARY:** Swachh Bharat Mission is very important considering the condition of sanitation, cleanliness and hygiene in India.

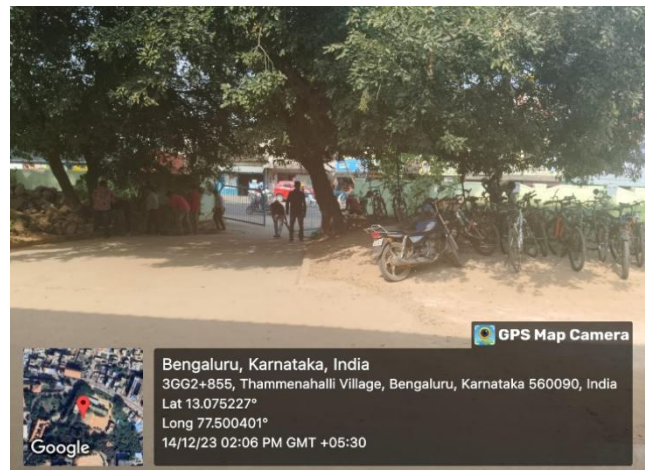

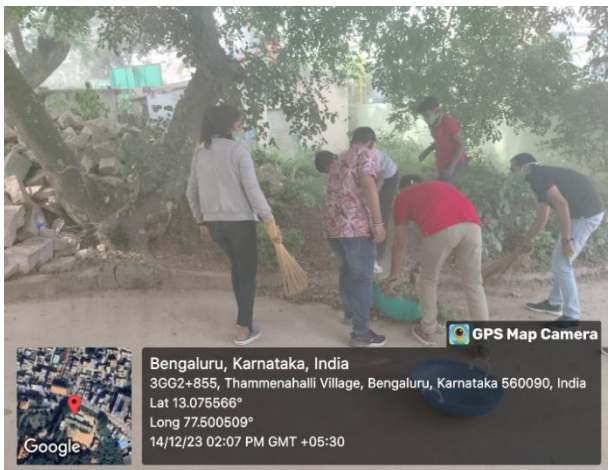

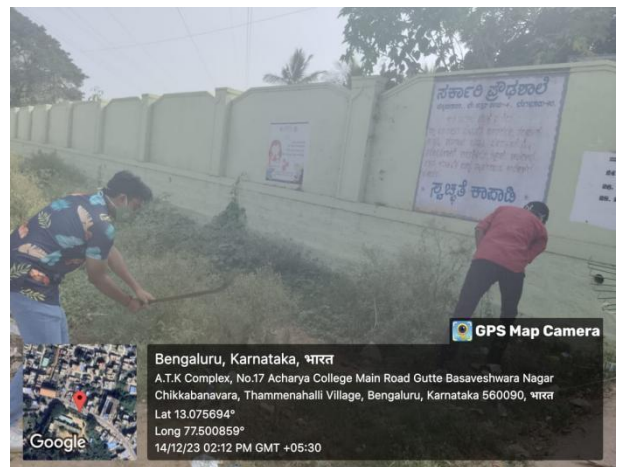

Millions of deaths in India have been reported in previous years due to diseases resulting from poor sanitation and hygiene. Also, people were not fully aware of the need for cleanliness and its impact on their health and social life.

Every urban/rural Indian household as well as offices were generating a good quantity of waste every day. This waste was either being accumulated or was strewn on streets in the absence of proper collection and disposal mechanism.

## OUTCOMES:

The key objectives of the Swachh Bharat Mission include eliminating open defecation, promoting the construction of toilets, creating awareness about sanitation and hygiene, and ensuring the safe disposal of waste. It aims to create Open Defecation Free (ODF) communities and improve overall sanitation infrastructure.

## Event Report

**Activity:** “Tree Sapling Plantation Drive”.

**Department:** NSS UNIT SKIT.

**INTRODUCTION/OVERVIEW:** Tree Plantation drives combat many environmental issues like deforestation, erosion of soil, desertification in semi-arid areas, global warming and hence enhancing the beauty and balance of the environment. Trees absorb harmful gases and emit oxygen resulting in an increase in oxygen supply. On average, a single tree emits 260 pounds of oxygen annually. Similarly, a fully-grown tree is sufficient for 18 human beings in one acre of land in one year stressing the importance of tree plantation for mankind.

**TOPIC:** Tree Sapling Plantation Drive on the occasion of World Environment day celebration

**Name of the Location:-**SREIS Campus

**Date:-** 13/10/2023

Students present: - 20

### **OBJECTIVES:**

1. The purpose of plantations is to save the environment which is endangered and to keep alive the beauty of our life.
2. Trees are god gifts of nature. They are also known as the best buddies of humans.
3. As the world is facing the issue of global warming and other environmental-related problems to recover from such issues planting trees became one of the most important aspects of life today.
4. It helps to maintain an eco-friendly environment around the whole world and reduces air pollution and improves the greenery

# SRI KRISHNA INSTITUTE OF TECHNOLOGY

(Accredited by NAAC Approved by A.I.C.T.E. New Delhi, Recognised by Govt. of Karnataka & Affiliated to V.T U., Belgavi)  
#29, Chimney Hills, Hesaraghatta Main Road, Chikkabanavara Post, Bengaluru- 560090

**SUMMARY:** Aim of planting trees is to restore native forests around the village to protect water supplies. Tree plantation means planting more trees in a planned way.

**OUTCOMES:** Following features were made aware to students:-

Trees give off oxygen that we need to breathe. Trees reduce the amount of storm water runoff, which reduces erosion and pollution in our waterways and may reduce the effects of flooding. Many species of wildlife depend on trees for habitat. Trees provide food, protection, and homes for many birds and mammals

## Event Report

### Activity : Road Safety Event

#### Department: NSS UNIT SKIT

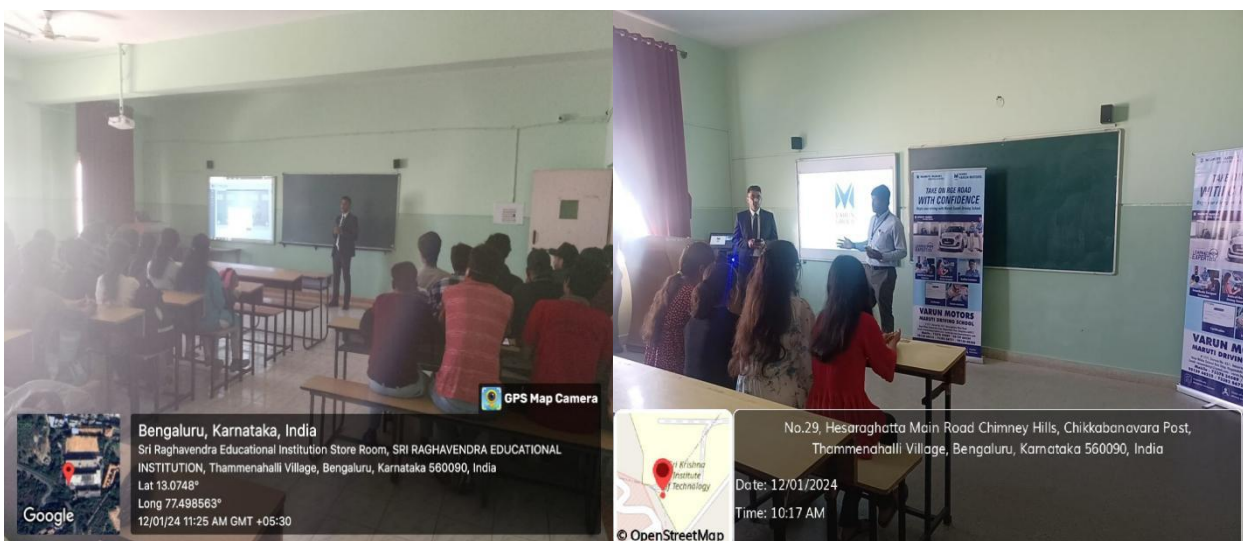

**INTRODUCTION/OVERVIEW:** Road traffic safety refers to the methods and measures used to prevent road users from being killed or seriously injured. Typical road users include pedestrians, cyclists, motorists, vehicle passengers, and passengers of on-road public transport.

**OBJECTIVES:** The primary objectives of the National Road Safety Policy in India are to reduce road traffic accidents, minimize fatalities and injuries resulting from road accidents, and enhance road infrastructure to make it safer and more efficient

**SUMMARY:** Road safety is the prevention and protection of road accidents by using all the road safety measures. It is to secure people while traveling on the roads. It is to make safe all the road users such as pedestrians, two-wheelers, four-wheelers, multi-wheelers, and other transport vehicle users.

**OUTCOMES:** Road safety outcome is a complex issue involving high number of risk factors and indicators that contributes to road accidents and their severity related to human-vehicle-road interactions.
